OFFICE OF PETITIONS

In re Application of	:	
Damale, Lee, Szeto, Butler, Zadikian	:	
Application No.: 10,074,264	:	
Filed: February 12, 2002	:	DECISION ACCORDING
Attorney Docket No: M-9927 US	:	STATUS UNDER
For: TRANSPORT OF HIGH-BANDWIDTH DATA-	:	RULE 47(a)
STREAMS OVER A NETWORK	:	

This is in response to the petition under 37 CFR 1.47(a), filed August 11, 2002, (certificate of mailing August 5, 2002.)

The petition is **GRANTED**.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

A "Notice to File Missing Parts of Non-Provisional Application" ("Notice") was mailed to petitioner on April 5, 2002, indicating that petitioner neglected to remit required fees and file a proper oath or declaration in compliance with 37 CFR 1.63. The Notice also advised petitioner that a \$65.00 surcharge was also due because a proper oath or declaration was not timely filed. The Notice set forth a period of reply of two months from the mailing date of the Notice and indicated that extensions of time for reply were available pursuant to 37 CFR 1.136(a).

In response thereto, petitioner filed a request for a two-month extension of time for reply, the instant petition, and the declaration of Samuel G. Campbell, III. Petitioner also filed several accompanying exhibits establishing that diligent efforts were made to locate inventor Poier so as to present inventor Poier with a complete copy of the application papers. The above-cited application is hereby accorded Rule 1.47(a) status as petitioner's inability to locate inventor Zadikian after diligent efforts has been satisfactorily established.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application will be forwarded to the Office of Initial Patent Examination for further processing.
